Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-13 and 24 drawn to a process of preventing and treating pathologies in the eye with a medicament comprising coenzyme ubiquinone Q10, classified in Class 424, subclass 94.1, for example.

II. Claims 14-23 drawn to a collyrium composition and a process of making same, classified in Class 424, subclass 78.04, for example.

Inventions I and II are related as process of use and product. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product such as for a skin lotion suitable for the treatment of senile xerosis (See, e.g., Hoppe *et al.*, Example 2).

The several inventions above are independent and distinct, each from the other. They have acquired a separate status in the art as a separate subject for inventive effect and require independent searches (as indicated by the different classification). The search for each of the above inventions is not co-extensive particularly with regard to the literature search. Further, a reference which would anticipate the invention of Group I would not necessarily anticipate or make obvious the any of the other groups.

For these reasons restriction for examination purposes is proper.

~~For these reasons restriction for examination purposes is proper.~~

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
